TO WHOM IT MAY CONCERN:

We are a manufacturer of Wireline trucks for the oil & gas industry. Our products require a robust system that can go from the extreme cold of the Canadian Arctic to the intense heat of the Arabian Desert. It must also provide clean, steady power to the Logging computers and peripheral systems. Hart-A-Gen has provided a system that satisfies all of our needs. It provides clean, reliable power that is virtually trouble free. For rock solid performance, we recommend Hart-A-Gen.
