Huston Texas 77041

Dear Mr. Fred Hardegen,

We recently purchased two fire trucks from Ferrara Fire Apparatus. Both units were equipped with Hart -A-Gen 6 KW PTO Generators. These generators have preformed very well and have been trouble free. We will soon be ordering another rescue truck and plan on installing a 10 KW Hart-A-Gen on it. The generator is very easy to use, just a push of a button you have power available. We highly recommend any fire department looking into a generator for your next engine to call Hart-A-Gen.

We thank all the members of your staff for making a dependable product that we plan on using for many years.
