To: Mr. Fred Hartdegen

Dear Mr. Hartdegen,

S & S Power Systems is in the oilfield equipment business. Our Company builds rebuilds and service wireline trucks. We endeavor to produce a very good product at a reasonable price.

We have used your 8 KW generator system with excellent results. Your Generators are simple, strong and without overly complicated controls. Over the years, we have used Generator sets from most of the known manufactures in my field and we have found yours to be the best all around.

S & S Power Systems will continue to buy and sell, the Hart-a-gen and will recommend it to my customers.

Thank you for an excellent product.

Dean Sullivan
Owner / Manager
